	ASSIGNMENT - 1

Task	Upload the dataset to Cognos Analytics, delete the unnecessary columns, create a data module, explore and visualize the dataset
------	---

Problem Statement:-

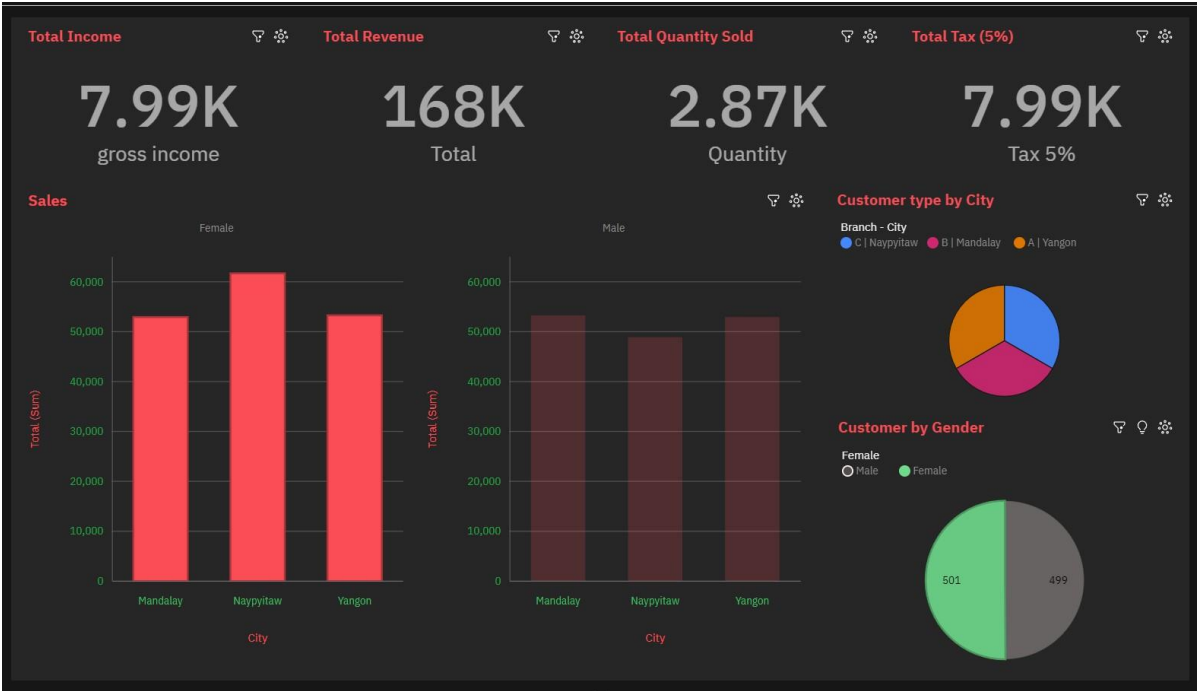

The growth of supermarkets in most populated cities is increasing and market competitions are also high. The dataset is one of the historical sales of supermarket company which has recorded in 3 different branches for 3 months data. Predictive data analytics methods are easy to apply to this dataset.

Output:-

Overall Dashboard

Female Customers

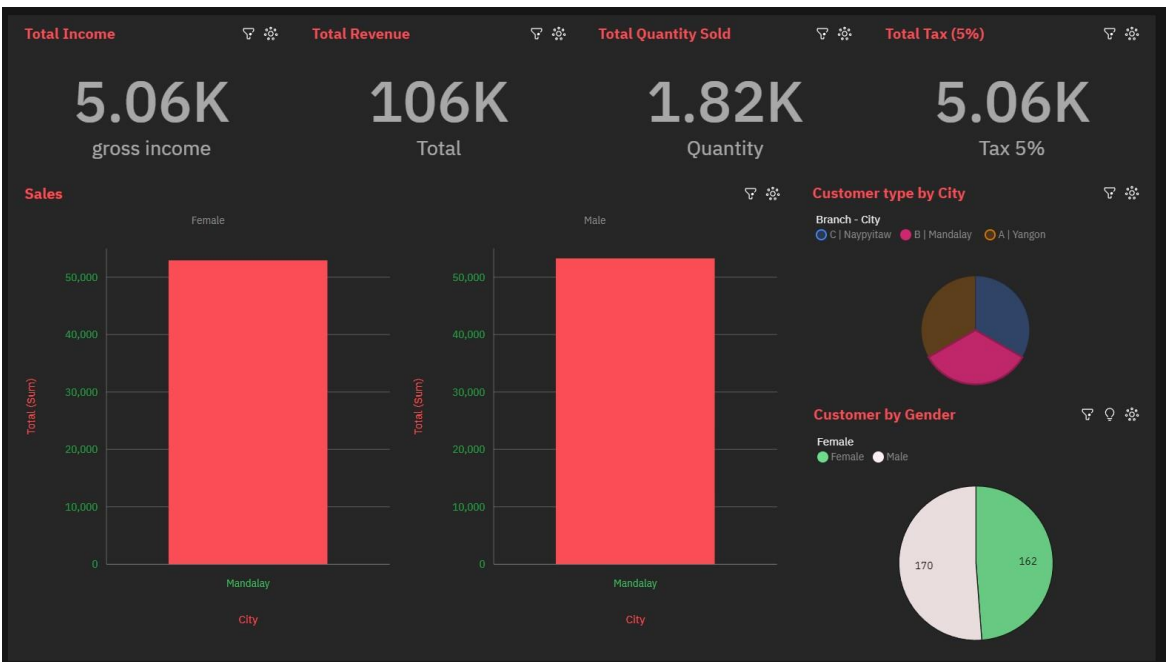

Male Customers

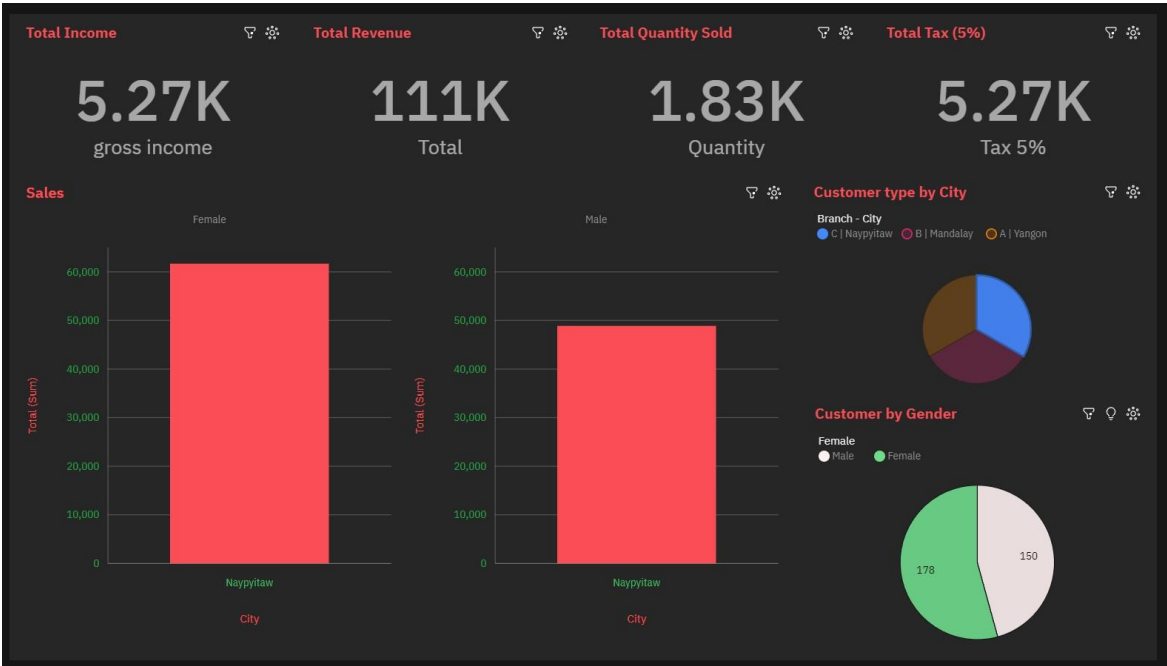

Super Market – A - Yangon

Super Market – B - Mandalay

Super Market – C - Naypyitaw

Sales

Female

City	Total (Sum)
Naypyitaw	62,000
